This feature is not intended for use by the driver while the vehicle is in motion. Always drive safely. (18) In the event of a medical or other emergency, press the SOS button to be connected to a Customer Care agent who can direct emergency assistance to your vehicle's location. SiriusXM Guardian services are dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or reach emergency support. (19) Roadside Assistance Call connects you directly to an agent who can provide the vehicle location to the Roadside Assistance Service. Vehicle must be within the United States, Puerto Rico or Canada to have network coverage. Additional roadside assistance charges may apply. Check warranty for details. (21) This system is a driver convenience system, not a substitute for active driver involvement.
