

# THE STRONGEST RAM 1500 EVER All-new Ram 1500: 98 percent of the steel used in the frame is high-strength steel, as is 38 percent of the steel used in the cab and box. The result is a reduction in weight without the sacrifice of durability and toughness Ram truck drivers depend on. Aluminum is used in the hood and tailgate to further reduce weight while maintaining structural integrity. HARDCORE CAPABILITY The all-new 2019 Ram 1500 was built to pull heavy loads, haul supplies over gravel roads and plow through the elements. Count on it to haul up to 2,300-lb\* max payload or tow up to 12,750 lb, which is best-in-class! V8 towing with complete confidence. The Pentastar® V6 and the available HEMI® V8 offer eTorque technology to help improve both performance and fuel efficiency. Opt for the Ram Rebel® or the available Off-Road Group for next-level off-road performance. The available class-exclusive¹ Active-Level™ Four-Corner Air Suspension offers automatic load leveling to help improve stability and maintain exceptional drive quality. STRENGTH & CAPABILITY

# TECHNOLOGY & COMFORT

#### TECHNOLOGY AT THE TOUCH OF YOUR FINGER

Truck owners demand the best technology and the all-new Ram 1500 delivers, including SiriusXM® with 360L² the most amazing listener experience ever, the class-exclusive¹ available 12-inch touchscreen media center, and the most powerful audio system in its segment¹ from Harman Kardon®—with a 900-watt amplifier and 19 speakers.

#### LUXURY DEFINED BY COMFORT, SPACE AND SILENCE

Luxury means having a quiet, smooth and supremely comfortable ride. All-new Ram 1500 achieves it with a class-exclusive<sup>1</sup> multilink coil spring rear suspension, a new Crew Cab that adds 4 inches to the interior length and provides both best-in-class<sup>1</sup> rear leg room and available class-exclusive<sup>3</sup> reclining rear seats—all topped off with best-in-class<sup>1</sup> interior background noise dampening.

REFINEMENT ON EVERY LEVEL OPT FOR THE BRILLIANCE OF YEAR-ROUND COMFORT WITH AVAILABLE FRONT HEATED AND VENTILATED SEATS.

CLASS

# THE 5.7L HEMI® V8 395HP 410LB-FT

## AVAILABLE eTORQUE TECHNOLOGY WITH 23 MPG HWY\* And a supplemental 130 lb-ft eTorque

#### THE TECHNOLOGY OF eTORQUE

The Ram Brand is known for technological leadership, and the addition of eTorque proves it. This mild hybrid system incorporates a number of technologies with the 3.6L Pentastar' V6 or the 5.7L HEMI VB, including regenerative braking, Stop/Start capability, a 48-volt lithium-ion battery pack and an on-board 12kw motor/generator. The electric motor serves to provide more supplemental power and Stop/Start helps improve fuel efficiency with seamless engine on/off operation, while regenerative braking recovers and converts energy during braking.

#### THE ADVANTAGES OF eTORQUE

The incorporation of available eTorque and its components offers significant advantages across the board. The electric motor enables longer 4-cylinder operation of the HEMI V8 Multi-Displacement System (MDS)/Fuel Saver Technology for additional fuel-efficiency benefits. Stop/Start capability also contributes to improved fuel efficiency, by up to 3.3 percent. Regenerative braking utilizes the on-board electric motor as a generator, converting energy to recharge the battery system. The Stop/Start System is completely transparent, and a dash-mounted system-disable switch lets the driver turn it off if desired.

# THE LEGEND EVOLVES INTRODUCING eTORQUE TECHNOLOGY

#### THE TORQUEFLITE® 8-SPEED TRANSMISSION

Two exceptional 8-speed automatic transmissions help churn out the power in the all-new 2019 Ram 1500. New for Ram 1500, powered by the Pentastar V6, is the 850RE transmission; torque capacity is rated at 369 lb-ft. 2019 Ram 1500 models employing the legendary 5.7L HEMI V8 utilize the new TorqueFlite 8HP75 transmission, with a torque capacity of 545 lb-ft.

Characteristics of both components point to resilient strength. Among them: fully electronic performance. On-the-fly shift map changing. More than 40 individual maps to address performance, drivability and fuel efficiency. Wide ratio spreads to help improve fuel efficiency with reduced RPM—which help reduce emissions by nearly 11 percent.

THE NEW 3.6L PENTASTAR V6 WITH eTORQUE TECHNOLOGY AND 25 MPG HWY<sup>†</sup>

305HP 269LB-FT And a supplemental 90 lb-ft eTorque

## THE STRONGEST RAM 1500 EVER

#### REAR SPRINGS

Adapt to handle payload while maintaining a level ride and excellent ride quality.

#### TIRE BLOCKER

Offers further protection in the event of a frontal crash. Driver and passenger side.

#### LARGER BRAKE ROTORS

The largest standard brakes in the seament! Front and back, they fully measure up-nearly 15 inches.

#### SPLAYED FRAME RAILS

Direct impact energy away from

#### THE START: A HIGH-STRENGTH STEEL FRAME

Tough starts with the foundation, and the all-new 2019 Ram 1500 is built to last, with 98 percent of the steel used in the frame comprised of highstrength steel-while still achieving a 100-lb weight reduction.

Frame construction permits notable secondary improvements. Tow hooks attached to the front are outwardly mounted, with a weight-efficient, closedloop design for improved strength. A tow hitch receiver mounted to the rear of the frame is standard on all models.

#### **NEW AXLES SHOWCASE STRENGTH AND TECHNOLOGY**

Ride strong. Ram truck axles take capability to the next level. Ram truck engineers refused to compromise, choosing a new 6-lug wheel design that enables up to 7,100-lb\* GVWR, a 9.25-inch (235-mm) rear axle with a GAWR of up to 4,100 lb\* and a GCWR of up to 17,000 lb\* The new electronic parking brake relies on axle modifications for integrated caliper ears, along with new viscosity lube. Opt for the Max Tow Package with the upgraded 9.75-inch (256-mm) rear axle and GCWR vaults up to 18,200 lb.\*

#### THE CLASS-EXCLUSIVE FOUR-CORNER AIR SUSPENSION SYSTEM

Completely unique to the light-duty segment, the automatic or driver-operated Active-Level<sup>™</sup> Four-Corner Air Suspension System is available on all trim levels (except Ram HFE). The system has been modified for 2019 Ram 1500, now with a redesigned air supply unit in a single unit to increase capability and reduce weight. It's also been retuned for the new, lighter-weight frame and

The five operational modes include two Off-Road heights, Aero Mode, Normal Ride height, and the Entry/Exit Mode.

#### FRONT AND REAR SUSPENSIONS

A new common front suspension between 4x2 and 4x4 configurations. Among the features: a repositioned heavy-duty stabilizer bar; new heavy-duty bearings for available 22-inch wheels; a new lightweight aluminum lower control arm and new low-drag 4x2 and 4x4 bearings.

The class-exclusive<sup>1</sup> multilink coil spring rear suspension stands apart with its coil springs and multiple trailing links, progressive-rate rear springs, a heavyduty stabilizer bar and lightweight aluminum rear shocks. Taken together, the suspensions on Ram 1500 deliver complete comfort and confidence.

#### IVER 100 AVAILABLE SAFETY & SECURITY FEATURES

#### LANESENSE® LANE DEPARTURE WARNING (LOW) PLUS4

Ram 1500 can read the road. Mounted on the external sideview mirrors, cameras can identify road lines, determine where the vehicle is and monitor motion. Should movement onto either line occur without use of the turn indicator, the system will warn the driver and apply torque to the steering wheel to correct the movement. If no action corrects the drift, the system will even automatically align the vehicle back into its correct lane position. Available.

#### NEW ADAPTIVE CRUISE CONTROL (ACC) WITH STOP AND GOS

Think cruise control that's smarter than ever. When the lanes ahead are clear, this available system maintains the set speed of travel. When traffic slows, it will automatically adjust to a safe distance selected by the driver. And, while most ACC" systems operate only down to 20 mph, our system operates down to 3 mph, virtually stopping the vehicle—then reengaging back to safe-range speeds as traffic begins to move again. (Note that the system does not perform 'panic stops' at speed.)

#### FORWARD COLLISION WARNING (FCW) PLUS<sup>6</sup> This available

asset incorporates Grade Braking to control the transmission and automatically downshifts to maintain selected speed and distance. The system operates independent of the ACC® system, notifies the driver if the vehicle is too close to a preceding vehicle, uses audible/ visual warnings and will brake the vehicle to 0 mph if the driver does not respond.

## A VAILABLE REAR CROSS-PATH DETECTION<sup>7</sup> When in Reverse and vehicles and/or other objects are in perpendicular relationships to your Ram pickup, dual wide-band radar sensors let you know, using illuminated icons in the outside mirrors and driver-selected chimes.

#### BLIND SPOT MONITORING (BSM)" WITH TRAILER

**DETECTION**<sup>7</sup> This available asset monitors the "blind spots" on each side of the vehicle, utilizing sensors in each of the side mirrors. The system provides audible chimes and/or visual icons, informing the driver when changing lanes, passing others or being passed. Trailer Detection' automatically senses and accounts for the length of the trailer.

AVAILABLE: THE NEW 360° SURROUND-VIEW CAMERA' Depending on the model and the options and packages selected, you can bring 360-degree awareness to the drive. Credit the smart combination of strategically positioned sensors that work with cameras mounted in the grills side mirrors and rear.

AVAILABLE PARK ASSIST' Ever-more sophisticated searons give all-new Ram 1500 superb capability. Available and new for 2019: Parallel and Perpendicular Park Assist', welcome additions to the ParkSense® Front and Rear Park Assist' platforms.

THE LARGEST STANDARD BRAKES IN THE SEGMENT Confident stopping power comes from a new brake system. The new brakes have the largest standard rotors in the segment! measuring nearly 15 inches in diameter fore and aft, sharply reducing 60 - 0 mph stopping distances and improving performance.

AVAILABLE SMARTBEAM HEADLAMPS This advanced system provides the maximum amount of light possible, automatically switching headlamps from high- to low-beam when oncoming headlamps or forward light is sensed, or when taillamps are detected in front of the vehicle.

# YOUR RAM 1500 YOUR STYLE

### 4x4 OFF-ROAD

#### 4X4 DEE-ROAD PACKAGI

Available on most trim levels. When your urge to explore is uncompromising, nothing should hold you back. The protection and gower from this tough, available package lets you master the unexplored.

Included: standard Linch lift, available 2-inch lift with Active Level<sup>IM</sup> Four Corner Air Suspension, 1118-inch DNN On-IDHFAcod or P20 DNN All-Ferrain tires? electronic locking rear avia (elocker), off-rand acilibrated shocks, HID Season Control, towhooks, multiple skill plates protecting the front suspension, transfer case, fuel tank and power steering unit, and 4x4 off-road decal

Available on Tradesman\* and Laramie\*t packages vary slightly by model. Exterior highlights include: chrome grille, chrome bumpers and 18-inch aluminum wheels for Tradesman. Chrome tow hooks, chrome window moldings and chrome wheel-to-wheel side steps for Laramie. Requires Equipment Frougs by model. See Buyer's Guide in the back of this catalog or visit RAMTRUCKS.COM for further details.

#### BLACK

#### BLACK APPEARANCE PACKAGE

Available on Big Hom<sup>®</sup> and Laramie. Exterior highlights include. Black body-color grille surround, Black body-color bumpers, Black monotone paint, Black badges, Black headlamp and taillamp bezels, Black RAM grille badge and 20- or 22-inch wheels. Interior highlights include: monotone Black interior treatment. Roulives Equipment Groups by model. See Buyer's builde in the back of this catalog or visit RAMTRUCKS.COM for further details

#### **SPORT**

#### SPORT APPEARANCE PACKAG

Available on Big Horn and Laramie; packages vary slightly by model. Exterior highlights include: body color grille surround, body-color bumpers, body-color door handles and mirror caps on Big Horn and Laramie. Sport performance hood on Laramie, and monotone paint treatment. Interior highlights include: monotone Black interior trin and seating, Requires Equipmen corpus by models. See Buyer's Guider in the back of this categor wirst RAMTEMIONS COM for further detail

# MORE ROOM INSIDE AND OUT

Overflowing with new features from the available class-exclusive<sup>1</sup> RamBox<sup>®</sup> Cargo Management System with 115-volt outlet to the new available power and assisted tailgate. Inside, you'll find a larger space that's more sophisticated than ever with best-in-class<sup>1</sup> available interior storage volume.

#### FULLY CONFIGURABLE DRIVER INFORMATION DISPLAY

Depending on the trim level, the Driver Information Display measures in with either a 3.5- or 7-inch display. In select models, this color display telegraphs reams of information, from speed to numerous in-motion data concerning mechanical operation. On premium models, the display offers high-definition quality, animated 3D graphics, with five display themes and

distinctive illuminated RAM identity. For 2019, the 7-inch display is also model-specific. On Ram Rebell\* models, there's a Rebel only theme with Red-lit badge contrasting with the Gray and Dark Ruby Red accents. The Ram Laramie Longhorn® display carries the Laramie Longhorn theme in subtle Gold tones against a dark background, while the Ram Limited display keeps the Limited theme: muted Violet and Light Gray on a darker background.

#### EASY-ACCESS CONNECTIVITY, WIRELESS CHARGING, FAST USB CONNECTIONS

Ditch the inconvenience of wires and opt for wireless phone charging. Simply set your phone on the console-mounted pad to begin charging.

Two sets of USB/Type-C USB ports are located on the front of the center console. The new Type-C USB ports enable charging up to four times faster than standard USB outlets, as well as faster data downloads. An auxiliary port is positioned between the USB outlets. An integrated phone shelf can carry as many as three smartphones vertically and is sized to carry most tablets.

#### Only Harman Kardon® could do it-and only the all-new 2019 Ram 1500

offers it: a custom-tuned, available system that makes every drive more enjoyable. Technology never sounded so good.

With 18 premium speakers plus a premium subwoofer strategically engineered within the cabin, the Harman Kardon Audio System also benefits from Active Noise Cancellation (included with HEMI® V8 engines), a refinement that helps cancel out unwanted noise-and which contributes to a superb audio experience. The audio system is powered by a 900-watt multi-channel Class-D amplifier made even better with 360° surround-sound and Digital Signal Processing.

# SMARTER, FASTER AND MORE ADVANCED CONNECTIVITY KEEPS YOU IN TOUCH WITH THE PEOPLE AND JOBS THAT MATTER MOST

and RamBox System locks. release the tailgate, lower the Air Suspension mode and offer the convenient Remote Start<sup>19</sup>

## CLASS-EXCLUSIVE RECONFIGURABLE CENTER CONSOLE REIMAGINED FRONT CENTER CONSOLE Drivers of Ram 1500 models equipped with bucket seats will enjoy a next-generation level of convenience and technology-with a center console designed around occupant comfort and need. Now more than 50 percent larger than the previous generation, this dynamic piece of equipment offers numerous different storage combinations. In the center, our engineers have designed a wider docking area with optional wireless charging-ideal for cell phones. A three-position sliding cup holder tray can be stowed under the center armrest, revealing a deep storage bin that can hold a 15-inch laptop. Lifting the lid of the center armrest also reveals an additional rubberlined storage bin, perfectly sized to fit a tablet. At the rear of the console, you'll find two additional cup holders, media outlets and the ability to mount an iPad® for convenient rear-seat viewing.
