RAM

1

Prf

Supercharged V8 Power,
massive suspension travel,
tuned exhaust

A red 2021 RAM 1500 TRX is shown driving on a sand dune. The truck is moving from the bottom right towards the top left of the frame, leaving a large, billowing cloud of sand behind it. The dunes are vast and smooth, with a soft, golden light illuminating the scene. The truck's front grille and headlights are visible, and the word 'RAM' is clearly seen on the front. The overall atmosphere is one of power and off-road capability in a desert environment.

2021 RAM 1500 TRX

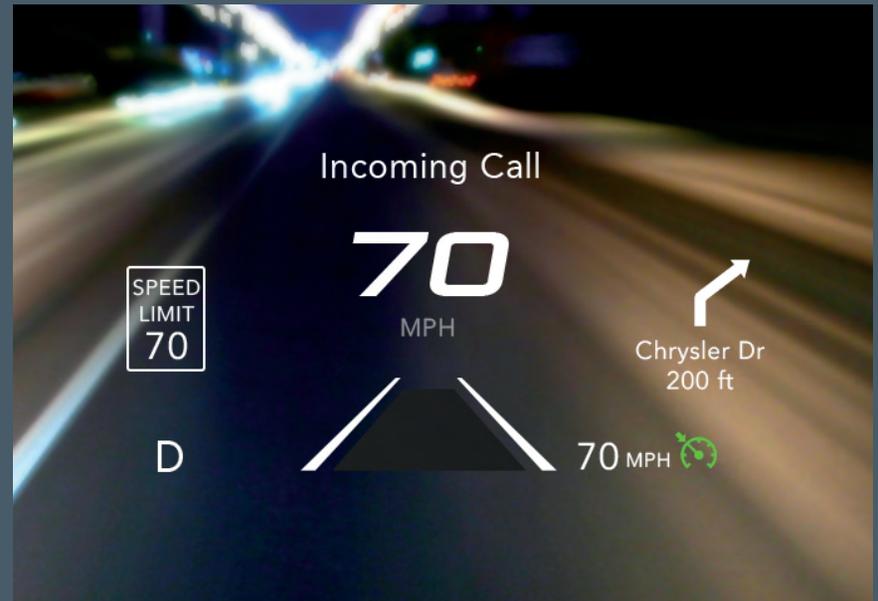

Built to rule the road and dominate the desert. Upgraded components withstand desert heat and sand environments at high speeds.

2

Tech

12-inch touchscreen,
Performance Pages and
available HUD

Both Performance Pages and Off-Road Performance Pages let you monitor vital performance stats and component information. The available Trailer Reverse Steering Control uses a directional dial to control the steering wheel and move the trailer in the desired direction. All TRX models feature a console-mounted gear shifter and signature flat-bottom steering wheel with enhanced grips and paddle shifters. Opt for the available reconfigurable Heads-Up Display (HUD) that projects key information in your sight line.

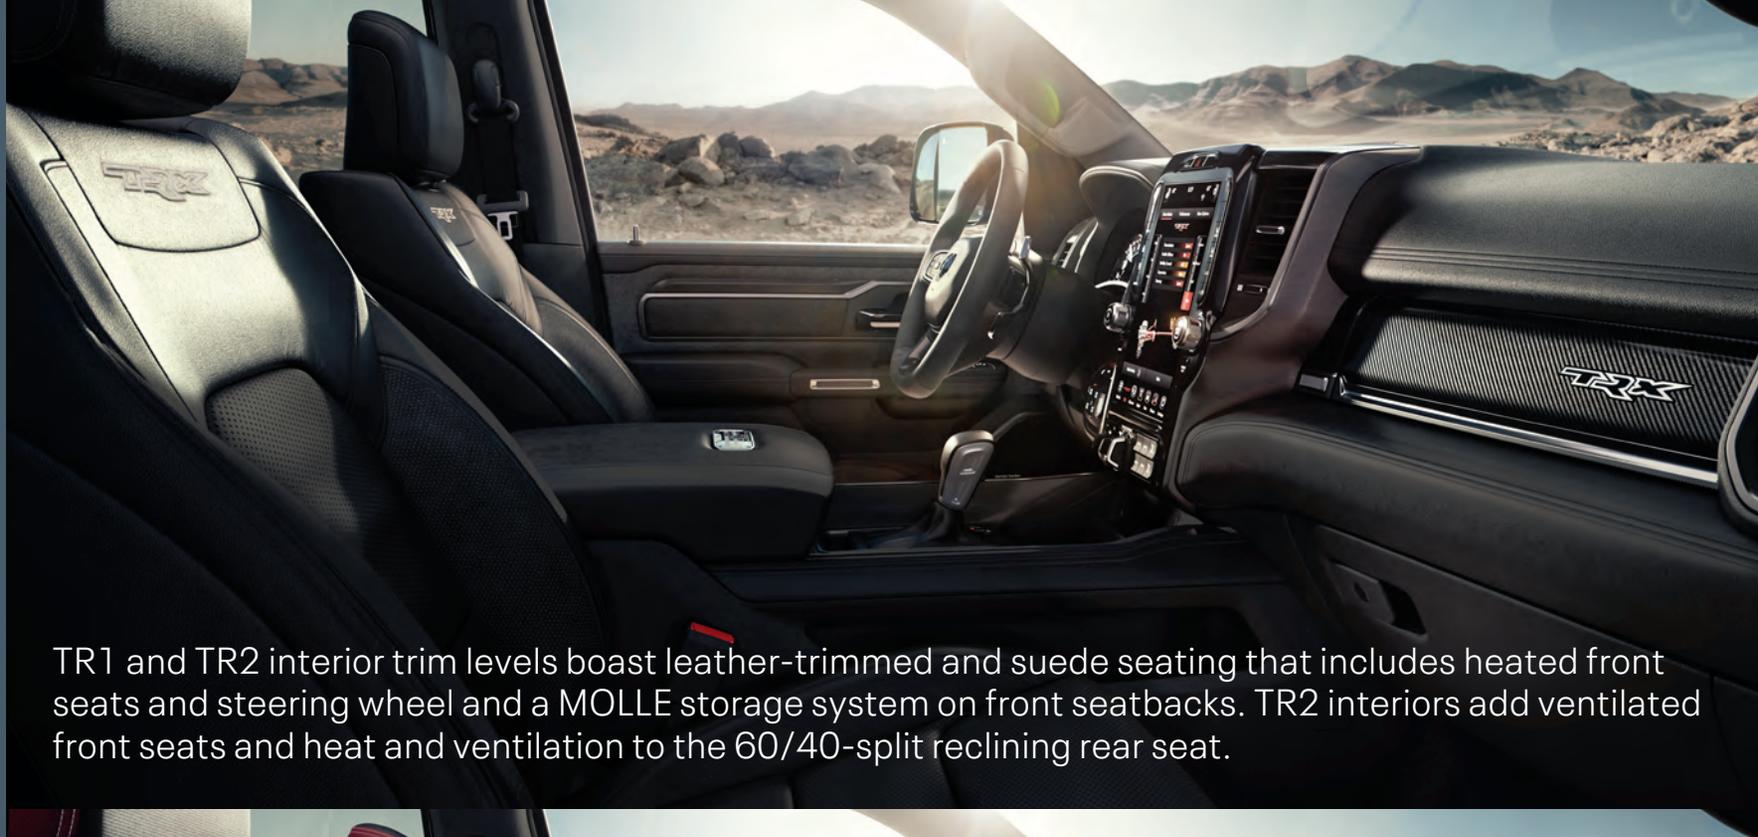

3

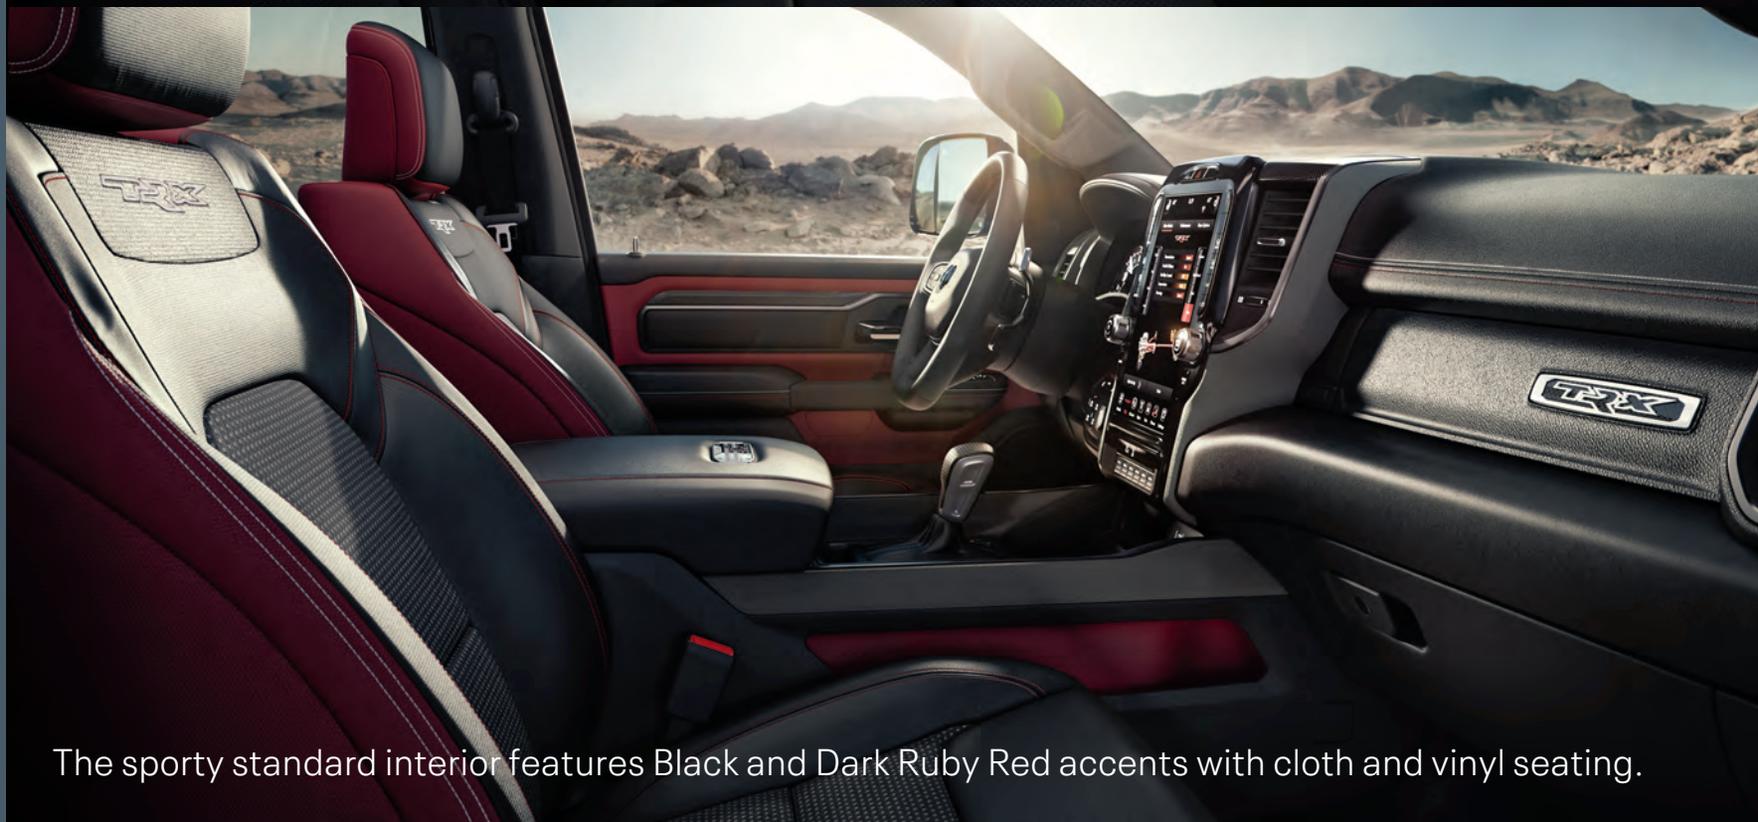

Cmft

High-end materials and
high-tech features

An intense performance truck demands an intense driver environment. All three interior options feature unique high-bolster seats, cluster display with Black Onyx trim rings and new overlay colors, an illuminated TRX badge in the cluster center and a large standard 12-inch touchscreen. The Red stitching and carbon-fiber accents shown are available on the TR2 Equipment Group.

TR1 and TR2 interior trim levels boast leather-trimmed and suede seating that includes heated front seats and steering wheel and a MOLLE storage system on front seatbacks. TR2 interiors add ventilated front seats and heat and ventilation to the 60/40-split reclining rear seat.

The sporty standard interior features Black and Dark Ruby Red accents with cloth and vinyl seating.

No. 1

The most powerful production pickup truck ever^{1*}

THE RAM 1500 TRX IN ITS ELEMENT

*All disclosures can be found on the last page.

QUICKEST, FASTEST, MOST POWERFUL PICKUP TRUCK IN THE WORLD²

The SRT[®] developed powertrain includes an intense 6.2L Supercharged HEMI[®] V8 and performance-proven TorqueFlite[®] 8-speed transmission.

A high-performance induction system feeds massive amounts of air to the supercharger. A TRX specific power-domed aluminum hood helps clear the engine's extra height. A robust cast iron block restrains a forged-steel crankshaft with induction-hardened bearings, all engineered to withstand firing pressures of 1,595 psi—the equivalent of 20,000 lb of force. The result of this advanced engineering is numbers like this:

- Best-in-class 0 to 60 mph in 4.5 seconds³
- Best-in-class top speed of 118 mph³
- Best-in-class 702 horsepower and 650 lb-ft of torque⁴

PERFORMANCE-READY FEATURES

- Robust 35-inch Goodyear® Wrangler® Territory tires offer control and stability in shifting conditions
- Exclusive Bilstein® Black Hawk® E2 active damping shock absorbers maximize handling, comfort and bottom-out resistance on high-speed sand runs
- Massive Performance Hood boasts a functional air intake and two 12x8-inch air filters
- Powder-coated bumpers feature new rear tow hooks and front skid plate
- More than 100 authentic Mopar® Parts and Accessories for TRX will be available—including a Bed-Mounted Spare Tire Carrier and Functional Beadlock Ring

IT'S BIG, BROAD AND LOADED WITH RUGGED PERFORMANCE ELEMENTS. THE TRX FRONT AXLE WAS SHIFTED 20 MM FORWARD AND THE BODY MADE 8 INCHES WIDER TO ACCOMMODATE BIGGER TIRES, WIDER WHEELS AND A 6-INCH-WIDER TRACK. MORE THAN 100 MOPAR® PARTS AND ACCESSORIES ARE AVAILABLE, INCLUDING:

- Available RamBar provides a platform for mounting off-road lighting
- Available Off-Road 5-Inch LED Light Kit
- Available Off-Road Style Running Boards
